

Declaration of consent under data protection law and to take photos

- I have read and understood the study information. I understand that in this consent page “data” includes first name, last name, date of birth, race, gender, and facial image.
 - I have been informed that my consent is voluntary. I have also been informed about contact information in case of further questions.
 - I consent to the collection, processing, and analysis of my data by the Max Planck Institute for Intelligent Systems and other investigators for research purposes.
 - The collected data may be used by the Max Planck Institute for INTELLIGENT SYSTEMS and other investigators within the scope of scientific research for the purpose described in the data handling part of this document.
 - I agree that within the scope of the study, my facial images are taken and scientifically evaluated.
-
1. I agree the data without mentioning my name may be used for the publication of research results in scientific journals and conferences and in the context of research and teaching.
 2. I agree that the data from this project may be combined and evaluated with other data collected in the scope of scientific research.
